

Device name: android-53144dd969f50300

Device MAC address: bc:bd:9e:2c:2c:f6

Report generated on 04/04/2021 - 20:47:19

Capture duration: 128.661919548 seconds

Number of packets: 164

Capture SHA1: 3c0da44b02801c657644987e19864efb3ad9eff7

Everything looks fine, zero alerts. Don't hesitate to check the uncategorized communications, if any.
